

*Includes Rear Facing HD Camera

Full HD Dash Camera & HD Rear Camera

with GPS, WiFi & Smartphone App

Record your complete surroundings with the DSH-882.

With the front facing camera recording 1080P Full-HD Resolution and the rear facing camera recording 720P HD Resolution you will capture any action on the road where ever it is.

The GPS Logger records your speed and location which can be played back via the included Dashmate PC software alongside your recorded footage.

The built in WiFi allows you to connect your smartphone to the DSH-882, giving you the ability to transfer and review your recorded footage.

DUAL RECORDING

With both front and rear cameras, the DSH-882 records in crystal clear 1080P Full-HD Resolution video from the front of the vehicle using its ultra-wide 140° field of view lens. The separate rear camera records all the details behind your vehicle in crisp 720P High Definition. No matter where you are positioned, you will get all the action on video.

WIFI CONNECTIVITY

Easily and wirelessly connect your smartphone to your DSH-882 while you are out and about.

The DSH-882's WiFi connection allows you to view, transfer and upload videos to your favourite social media platform all via the DSH-882 App.

Dashmate DSH-882 App can be downloaded from the Apple App Store and Google Play Store.

* Micro SD card not included. Compatible with Micro SD cards minimum 16GB, up to 64GB capacity. Class 6 or above (Class 10 recommended).

** Smartphone not included.

PARK MODE

Park Mode watches over your vehicle while it is parked monitoring for any impacts or vibrations.

If an impact is detected the DSH-882 powers up and begins recording 60 seconds of footage, allowing you to catch anyone who has damaged your parked vehicle.

SONY CMOS IMAGE SENSOR

Equipped with a Sony CMOS Image Sensor which will record High-Resolution Images with superb rich colours at 30 frames per second, even low light and night time conditions.

1080P RESOLUTION

the front facing main camera captures your trip in Full HD High Definition, recording all details on the road.

GPS LOGGER

the built in GPS logger records your journey which can then be mapped out alongside your footage with the included software.

140° FOV

with the ultra wide angle lens, you will capture more details into each frame of footage.

MOTION DETECTION

will stop the Dash Camera from recording when no movement is detected.

DUAL CHANNEL RECORDING

with the included rear facing camera the DSH-882 records what is in front of, and behind your vehicle.

WIFI CONNECTIVITY

allows you to connect your smartphone to the DSH-882, giving you the ability to transfer and review your recorded footage.

G-SENSOR

detects when there is an impact on your vehicle and saves the footage so it is not recorded over.

PHOTO MODE

gives you the option to take 2MP photos allowing you to document the incident with additional information.
