TECHNOLOGY DRIVEN™

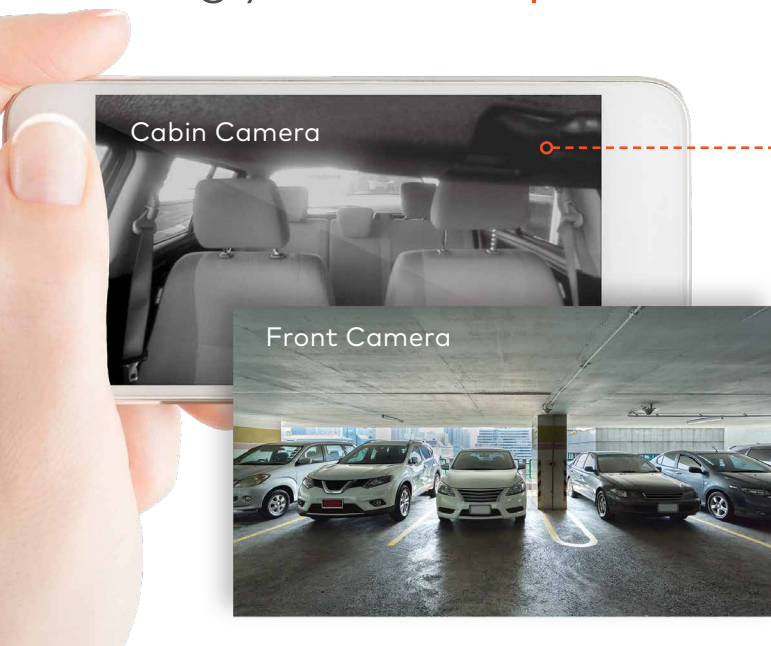

## CONNECTED 3G DUAL CHANNEL DASH CAMERA WITH GPS & WI-FI

The first Connected Dash Camera that documents everything going on in and around your vehicle, all the time, even when parked!

Easily monitor your vehicle and its surroundings in real-time and get instant notifications of any event, so that you are connected to what is happening at all times with your vehicle.

The DSH-932s built in 3G connection delivers live alerts and live video streaming, because knowledge is power. Monitor your vehicle in real time from any location.

Monitor your vehicle from **anywhere**,  
using your **smartphone**.

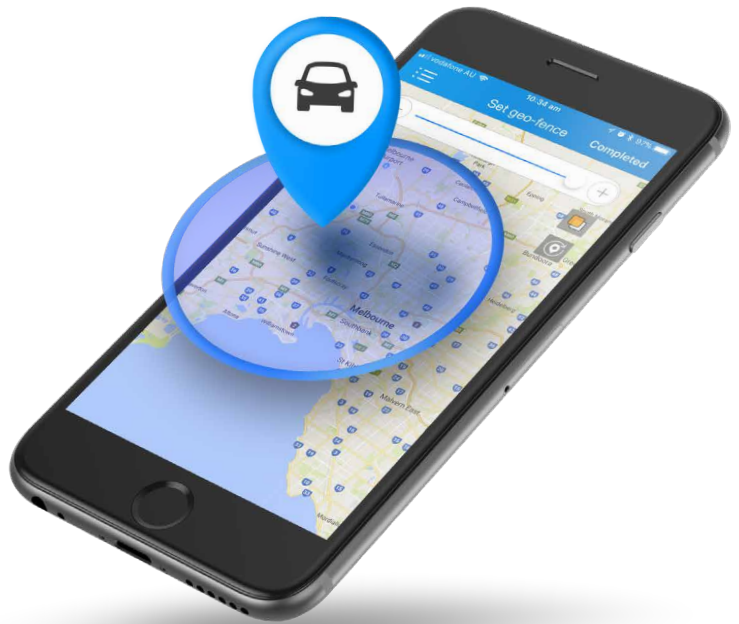

- **LIVE STREAM**  
View and Record the live video feed from both the Front facing Dash Camera and internal Cabin Camera.
- **GPS TRACKING**  
Track your vehicle wherever you are with the DSH-932s built in GPS.
- **2-WAY COMMUNICATION**  
Use the built in speaker to communicate with whoever is in your vehicle.
- **STARTER SIM CARD INCLUDED**  
Includes Starter Sim Card for 24/7 connection to your smartphone via our DSH-932 App.

## GEO-FENCING

Lets you know when your vehicle strays too far

The DSH-932s Geo-fencing setting lets you easily mark an area on the Apps map and if your vehicle leaves this marked area the DSH-932 will send a message to your smartphone notifying that your vehicle has left your set Geo-Fence.

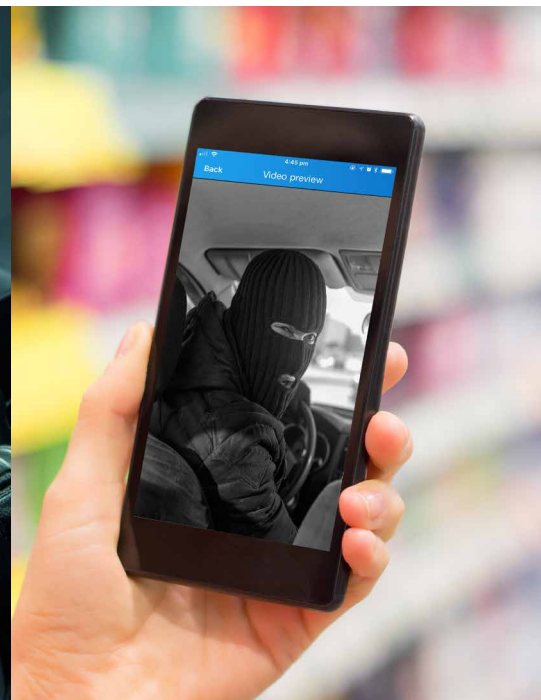

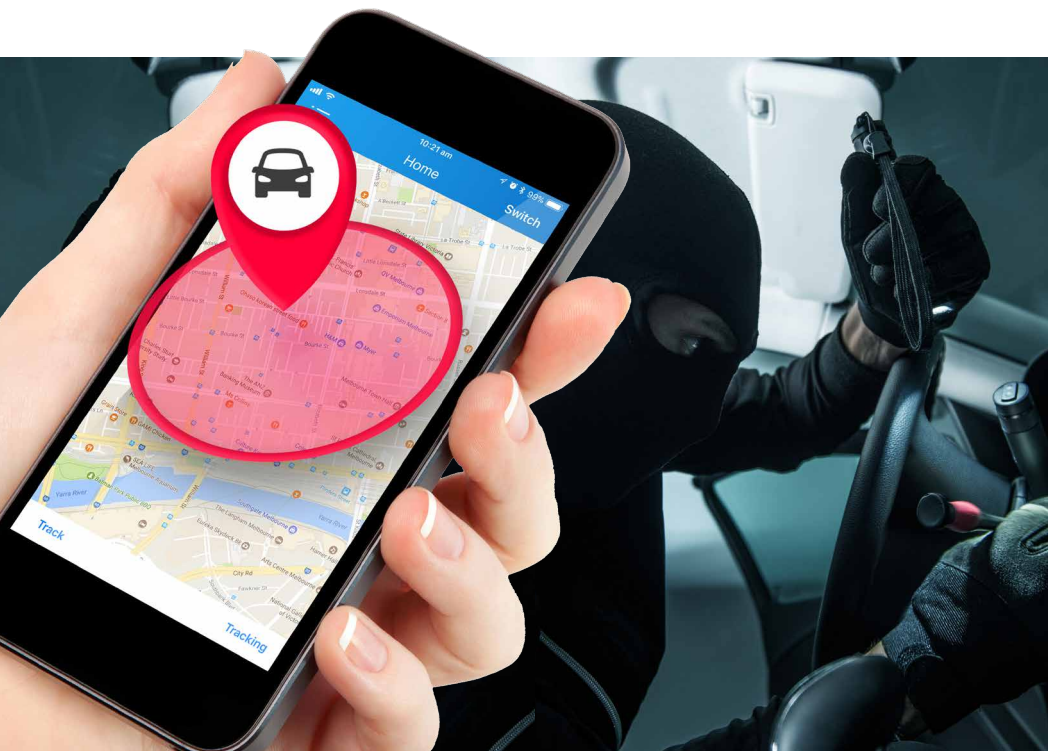

This feature is great for setting boundaries for family members and other people sharing your vehicle.

## PARKMODE PLUS

Receive Alerts 24/7 via your Smartphone

Get notifications 24/7 via the DSH-932 App to your smartphone using the built in 3G module. In an event or incident where the internal G-Sensor is triggered a notification alarm is sent via the App. Using your smartphone you can view the cameras live, activate recording and use the in built speaker to communicate with whoever is in your vehicle, whether they are friendly or even unwanted intruders.

## Overview

### RESOLUTION

Forward Facing Camera, Full-HD 1080P Resolution.

### 140° WIDE LENS

140 Degree Ultra Wide Angle Lens provides enhanced coverage of footage.

### CABIN CAMERA

Discreet Cabin Camera for recording your vehicles interior including it's occupants.

### HARDWIRE KIT

Hardwire Kit Included for permanent battery connection.

### MICRO SD SLOT

Micro SD Card Slot up to 32GB Capacity \*SD Card Not Included.

### SIM CARD SLOT/3G MODULE

SIM Card Slot/3G Module for 24/7 network connectivity and remote connection to your smartphone via our App.

## How it works

01

### DUAL CHANNEL

Front Facing Full-HD Camera and Internal Cabin Camera. Front camera records the road, whilst the cabin camera records inside the vehicle.

02

### SIM CARD

Connected to the 3G network, use your smartphone to view live footage from front and cabin cameras from anywhere you can get network access.

03

### SMARTPHONE APP

Via the open App, receive notification of car movement outside the Geofence or in the event of an accident or incident if the GPS sensor is activated.

04

### LIVE VIEW

Remotely view live footage from both the front facing and cabin cameras using your smartphone. Communicate via the 2 way radio with anyone inside your vehicle.

## Social Media Sharing

Connect your car to the rest of your life with the DSH-932 App, which allows you to upload your photos and videos to your preferred social media platform.

**Please note:** Micro SD card not included.

- Compatible with Micro SD cards up to 32GB, Class 6 & above.
- Starter Sim Card included. A data plan is required for remote connectivity and associated functionality.
- Data plan pricing is available during the setup of the Starter SIM Card. SIM Card maybe changed at anytime with a service provider of your choice.\*
- Data usage by the DSH-932 will be billed by your chosen service provider, these costs form the TCO (Total Cost of Ownership) and have no association with Dashmate.

## App Download

View your footage and GPS Map data on your device using the Dashmate App.

The Dashmate DSH-932 App available for your iOS and Android smartphone or device is available from the Apple App Store and Google Play Store.

### DEVICE REQUIREMENTS:

iPhone 5 or later using iOS 8.0 and above. Samsung Galaxy S3 or later using Android 4.2.2 and above.

Apple, the Apple logo, and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. Google Play and the Google Play logo are trademarks of Google Inc. Industries.

## FEATURES

### Everything else you need to know

**Full-HD 1080P Resolution** Captures your trip in full high definition recording all details on the road using your front facing camera.

**140° FOV** The Ultra-Wide angle lens captures more info with every frame from the front dash camera.

**3G Remote Connectivity** Direct connect to your front dash camera and internal cabin camera over a 3G network and live video stream footage from anywhere.\*

**WIFI Connectivity** Allows you to connect your smartphone to the DSH-932, giving you the ability to transfer and review your recorded footage.

**Integrated Cabin Cam** View inside your vehicle via live video stream to your smartphone. Activate remote recording if someone is driving or use the 2-way microphone to talk to anyone inside your vehicle, even intruders.

**Geo-fencing** Allows you to easily map a boundary on your smartphone. When your vehicle leaves this boundary the DSH-932 will send a notification to your smartphone.

**Anti Theft Alarm** Watches over your vehicle when it is parked and alerts you via your smartphone if the G-Sensor is triggered.

**GPS Logger** Records your vehicles location which can be tracked live via 3G or documented and played back on your smartphone using the Dashmate DSH-932 App.

**Hard Wire Kit** Powers the DSH-932 without using your vehicles DC power socket, even when your vehicle is parked.

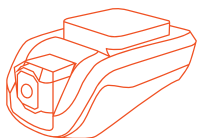

**G-Sensor** Detects when there is an impact to your vehicle and saves the footage so it is not recorded over.

\* Livestream footage is subject to 3G network connectivity and signal availability and coverage to your area.
